|---|---|---|---|

For our customers and ourselves.

We believe in the power of partnership: in smarter thinking, engineering excellence, seamless performance and the ability of our technologies to make the world better. We are confident in our ability to always deliver yet have the modesty to know working in partnership creates outstanding results and mutual values.

Customer-Centric Engagement Model

Global Network Delivery Model

Innovation Labs And Co-Innovation Network

We are ambitious both for ourselves and for our clients.

We pull together, drawing on our strengths to keep moving forward and we're only satisfied when our work has delivered the right result.

Innovation at the Intersection of Technologies.

When two or more Digital Technologies intersect, the result is an exploding universe of ideas and exciting experiments.

PROVIDING CERTAINTY IN AN UNCERTAIN WORLD

We are **PRO**

Word from the President

"Billiontags offers the best team for your valuable projects, putting our hard work and complete effort aiming at full customer satisfaction. We also aim to provide quality products upfront and provide all necessary support for the customer and ensure on-time deliverables. Billiontags sees the world differently and does not create problems and solve them, instead Billiontags just looks into existing problems and provides best possible solution. We are a team of young and energetic people, working towards development and creating values for the society. We always give our best"

Praveen Kumar - CEO

"I am hear to ask, how do we bring a change? How do we dissect the paradox that exists in our lives? We need to go back to understanding if there's anything written in those creased pages of time that can actually reveal more knowledge and wisdom of how we can transform our experience of life today. Otherwise this paradox means that every step forward we take, We're taking three backwards EVERY time."

Dilip - CEO

The Artist Otherwise Known as an Entrepreneur.

We're all artists. That doesn't mean we're all Picassos with paintbrushes, mind you. But we all have the capacity to create something unique.

Entrepreneurs Don't
Follow Trends
-- They Create Them

"It doesn't make sense to hire smart people and then tell them what to do; we hire smart people so they can tell us what to do."

-Steve Jobs

We work abiding corporate principles.
